

COMPACTORS

Economise your costly office floor space.

Mobile Shelving-Compactors is a compact archive storage system comprising of shelving or lockers mounted on mobile bases which slide along rails. This means that all but one of the aisles between the shelving units are eliminated and the modules are moved to access the required aisle.

This are compact storage system, therefore storage space can be doubled, or the amount of space required reduced. Mobile shelving is ideal for the storage of all types of books and documents, making of a perfect system for office libraries, publishing houses, technical archives, and many more. It can also be used to store other types of small articles, such as pharmaceutical products or spare parts. Mobile shelving-Compactor system adapts perfectly to the available space and to the characteristics of the product being stored.

'Jay' Compactors

Applications	<ul style="list-style-type: none"> • Engineering Stores • Archives • Offices • Small parts warehouse • Pharmaceuticals • Filing & document storage
Advantages	<ul style="list-style-type: none"> ➔ It saves on spaces, as it is a compact system. ➔ Order: the different available accessories enable articles to be perfectly classified when archived or stored. ➔ Efficiency: required space is reduced and material is easily classified. ➔ Security: the security lock for the lockers guaranties that Access is restricted to authorised personnel. ➔ Versatility: accessories, shelf levels at 25mm intervals and a variety of sizes mean the shelving can be adapted to meet all types of requirements. ➔ Minimum effort: the design of the wheel or the handle ensures more ergonomic shelf movement.
