

LONG SPAN SHELVES RACKING

for Light, Medium & Heavy loads

Optimising your individual storage requirements.

Warehousing & order picking are constantly challenged by the extensive variety of products available. 'Jay' Long span shelving racks are perfect for optimizing your individual storage requirements & will create maximum storage capacity with minimum space. Especially suitable for bulky items.

'Jay' long span racking facilitates the storage of goods with large article ranges at small to medium quantities. The racking can be universally utilized in all industry branches for small parts but also for bulky parts. When making goods available- according to the 'man-to-goods' principle – attention must be paid to goods being directly available for order picker.

Flexible in application and easily adjustable, it is particularly suitable for large volume, bulky goods and containers. Order picking by hand is easier, picking times are reduced.

Different shelf options are available like, metal, wooden, wire mesh, grating etc.

Levels are created using load beams & panels, or shelves mounted on panel support member.

'Jay' Long Span Shelving Racking

Applications	<p>This are mainly used for 'Man-to-goods' principle.</p> <ul style="list-style-type: none"> • Engineering Stores • Small parts warehouse • Packing material
Advantages	<ul style="list-style-type: none"> ➔ Immediate Access to all articles ➔ Flexible & expendable ➔ Easy to assemble.
